## 1. Introduction

1.1. The online trading services are provided by Admiral Markets AS Jordan whose registered office is at Time Centre Building, Um Uthaina, Amman, Jordan (we, us or our as appropriate) on and subject to the following terms and conditions and the duly completed account opening form (as updated or amended from time to time) (together Agreement) both of which shall apply to all dealings between us and you.

1.2. We are authorised and regulated by the Jordan Securities Commission (JSC) in the Hashemite Kingdom of Jordan and registered with the Companies Control Department as a Limited Liability Company under no. 57026. The address of the JSC is Arjan Area – Near the Ministry of Interior Mansur ‘Ibn Abi Amir ‘Amman.

1.3. In our dealings with retail clients we will, where they are applicable, apply the negative equity balance protection and margin and margin requirements. This means that for retail clients trading restricted speculative investments, such as CFD’s, the liability for all restricted speculative investments connected to the retail client’s account is limited to the funds in that account to the intent that a retail client cannot lose more than funds dedicated to trading CFD’s and any other restricted speculative investment.

1.4. For the avoidance of doubt, your electronic acceptance of the terms and conditions of the Agreement and your use or continued use of our services will be taken as your consent to be legally bound by the Agreement.

1.5. The Agreement shall supersede any previous agreement, arrangement or understanding, whether written or oral, between us as to the basis on which we provide services to you. We may vary or amend the Agreement at any time upon notice to you, given or confirmed in writing (which variation or amendment shall be effective on the date specified in our notice or, if no date is specified, immediately) which may include displaying such notice on our website, online trading platform and account review facility (collectively, the Online Facility). Our services are provided subject to any disclosures or disclaimers found in the Agreement or the Online Facility.

1.6. A current and definitive copy of these terms and conditions (as amended from time time) will be available to you on the Online Facility at all times.

1.7. You undertake (which is a type of contractually binding promise) to notify us immediately of any changes to any information you have provided to us in connection with the Agreement (which includes in relation to the duly completed account opening form).

1.8. In entering into the Agreement you authorise us or any agent acting on our behalf to investigate your identity or credit standing and to contact such banks, financial institutions and credit agencies as we or they shall.

1.9. We will communicate with you in the English language and all transactions you enter into with or through us will be concluded in the English language.

1.10. In these terms and conditions we have used defined words and terms in order to make it easier to read. After a definition or an explanatory word or phrase, we have included the relevant defined word or term in bold between brackets. Unless the context requires otherwise, all other uses of a defined word or term will have the same meaning.

## 1.11. Cancellation rights

1.11.1. You have a right to cancel the Agreement within 14 days of the day we receive the duly completed account opening form from you. If you would like to cancel the Agreement please let your contact at Admiral Markets AS Jordan know or write to us at Time Centre Building, Um Uthaina, Amman, Jordan or email us via your registered email address using the contact details on our website: [www.admiralmarkets.com/?regulator=jsc](http://www.admiralmarkets.com/?regulator=jsc)

1.11.2. The right to cancel the Agreement only relates to cancelling the Agreement itself. Cancellation will not affect your or our accrued rights, indemnities, existing commitments or any other contractual provision intended to survive termination of the Agreement.

1.11.3. No penalty will apply on cancellation. Cancellation will not affect the completion of transactions initiated prior to us receiving your notice of cancellation. On receipt of a cancellation notice, we will cancel all outstanding orders and close out any open positions that you hold at the prevailing market price (as determined by us). In addition, you will pay any fees and charges incurred up to the date of cancellation and any additional expenses necessarily incurred by us (or a third party) in cancelling the Agreement and any losses necessarily realised in settling or concluding outstanding transactions and transferring your funds back to you.

1.11.4. If you do not exercise the right to cancel within the requisite time period, you will still be entitled to exercise your right to terminate the Agreement under clause 23 of these terms and conditions.

## 2. Services

2.1. We offer a non-advisory, execution-only dealing service to you in relation to transactions in contracts for differences (**CFDs**) where the underlying investments or products include rolling spot foreign exchange contracts, precious metals, future contracts and any other financial products we may offer through the Online Facility from time to time (collectively **Products**). Where you hold more than one account held for the purpose of trading CFD's, these accounts will for the purpose of these terms be consolidated and be considered to be one account.

2.2. We provide the ability to trade Products denominated in different currencies using a main account currency of your choice. In several countries we may offer the national currency as the main account currency for clients from those countries. Information about currency availability is posted on the Online Facility. When you trade a Product denominated in a currency other than the main account currency, a margin requirement is automatically converted into the main account currency using the relevant exchange rate quoted by us for CFDs. Furthermore, position gains and losses will be continuously converted into the main account currency using the aforementioned exchange rate.

2.3. When using our client services via the Online Facility, you agree to monitor spot foreign currency exchange rates quoted on the Online Facility and will accept the conversion rates applied to your trades on Products denominated in currencies other than your main account currency.

We will not advise you on the merits of any transaction entered into by you nor will we manage or monitor any open positions you may have in the Products. You acknowledge that our execution of any order on your behalf does not in any way imply that we have approved or recommended that transaction or Product. We have set out various risk

disclosures in relation to our services and the Products on the Online Facility and at Schedule 2 to these terms and conditions.

2.4. We are authorised to execute all or any of your orders to buy or sell Products with such counterparty as we may reasonably select (which will usually be us but may, subject to regulatory requirements, include any affiliate of ours). You acknowledge and agree that we will usually be the counterparty on any transactions.

2.5. Unless we have otherwise agreed in advance in writing, you will enter into each transaction as principal and not as agent on behalf of someone else. We shall be responsible to you alone and shall have no duties or obligations to any of your underlying principles or customers. You alone will be responsible for the performance of your obligations to us.

2.6. All transactions we enter into with you or on your behalf will be placed and executed generally in accordance with the terms of our order execution policy (as amended from time to time) details of which are available on the Online Facility (**Order Execution Policy**). Our Order Execution Policy is a policy only, is not part of the Agreement, is not intended to be contractually binding and does not impose or seek to impose any obligations on us which we would not otherwise have whether under the Agreement or JSC Laws, Instructions and Regulations.

2.7. We reserve the right to modify, suspend or discontinue, temporarily or permanently, all or any of our dealing services (in whole or in part) with or without notice. You agree that we will not be responsible or liable to you or to any third party (for whom you may be acting) for any modification, suspension or discontinuance of any of our dealing services.

## 3. Prices

3.1. We will provide you with “bid” and “offer” prices in respect of each of the Products offered through the Online Facility. We may also charge you a commission on each transaction which shall be notified to you through the Online Facility.

3.2. Each price published through the Online Facility shall be valid until the earlier of its expiration time and the time, if any, at which it is otherwise cancelled or withdrawn by us. Each price shall be available for you to enter into a transaction with or through us up to a principal amount not to exceed a maximum determined by us published on the Online Facility or otherwise notified to you.

3.3. You acknowledge that the prices and maximum amounts we may offer to you may differ from prices and maximum amounts provided to our other clients and may be withdrawn or changed without notice. We may at our absolute discretion and without prior notice to you immediately alter, withdraw or refuse to deal on any price we may have published or cease the provision of prices altogether in some or all Products and for some or all delivery or settlement dates at any time (for example, where you have accepted a quotation from us or submitted an order at a particular price, we cannot guarantee the price at which your order is actually executed. This is commonly known as “slippage”. However, we will adopt a consistent approach, so sometimes such “slippage” will work in our favour and sometimes it will work in your favour).

## 4. Orders, Transactions and Open Positions

- 4.1. Unless otherwise agreed by us all orders must be given to us electronically through the Online Facility (although we may in an emergency and at our absolute discretion accept instructions by telephone).
- 4.2. We may at our absolute discretion require confirmation of any order in such form as we may specify.
- 4.3. An order given to us by you, or on your behalf, shall not take effect until actually received and accepted by us. An order once received by us cannot be rescinded, withdrawn or amended without our express consent.
- 4.4. We shall be entitled to act on your behalf upon any order or instruction we reasonably believe to have been given or purporting to be given by you or any other person on your behalf without further enquiry as to the authenticity of the order or the instruction or the authority or identity of any such person giving or purporting to give such order or instruction.
- 4.5. We may, at our discretion refuse to accept any order from you in whole or in part or following receipt of your order refuse to act on it but should we do so we will use our reasonable endeavours to notify you of any such refusal, with or without giving any reasons. In addition, an order which, for any reason, is not received by us in a manner in which it can be processed, including a failure of the Online Facility to accept or process such instruction, shall be deemed not to have been received by us.
- 4.6. The execution of an order by us shall constitute a binding agreement between us on the terms of such executed order.
- 4.7. The procedure for entering orders is specified on the Online Facility.
- 4.8. You acknowledge that following execution of any transaction, you are solely responsible for making and maintaining contact with us and for monitoring open positions and ensuring that any further instructions are given on a timely basis. In the event of any failure to do so, we can give no assurance that it will be possible for us to contact you and we accept no responsibility or liability to you for loss suffered (or alleged to be suffered) as a result of any failure by you to do so.
- 4.9. You agree to keep adequate records to demonstrate the nature of orders submitted and the time at which such orders are submitted.
- 4.10. We may, at our absolute discretion, require you to limit the number of orders you may give us or the number or value of open positions which you may have at any time and/or only allow you to enter into closing transactions or we may close out any one or more positions or reverse transactions in order to ensure that any position limits we may have imposed are maintained.
- 4.11. If you place a stop loss order and are stopped out incurring a loss, you must cover the shortfall on your account within one business day. However, we may, at our discretion agree a longer time scale. If you are a retail client you may benefit from the negative balance protection referred to in Clause 1.4. If you are categorised as a professional client we may fully or partially cover any such losses (in accordance with our Negative Balance Protection

Policy statement which, for the avoidance of doubt, is not contractually binding and does not form part of the Agreement).

4.12. Notwithstanding any provision there may be in these Terms and Conditions to the contrary, you shall have no additional payment obligation over and above the amount of funds you have initially deposited in respect of a transaction where applicable law or regulation prohibits the marketing, distribution or sale of a Product in circumstances where there is an additional payment obligation.

4.13. Should quoting and/or execution errors occur due to a typographical error or other mistake in a quote or indication, we will not be responsible or liable to you for the resulting errors in your account balances. In the event of a quoting and/or execution error, we reserve the right to cancel orders, reverse transactions, close positions and make any necessary corrections or adjustments on the account involved (including in relation to any "slippage" referred to in clause 3.3). Any dispute arising from such quoting or execution errors (including any "slippage") will be resolved by us at our absolute discretion.

4.14 Admiral Markets AS Jordan is not responsible or liable for the liquidation of orders arising from several factors, including without restriction, spread widening, swap charges, and change of currency value.

4.15. If any regulated market, central clearing counterparty, multilateral trading facility or other type of trading platform (each a **Market**) (or intermediate broker or agent, acting at the direction of, or as a result of action taken by, a Market) or regulatory body takes any action which affects a transaction, or becomes insolvent or is suspended from operating, then we may take any action which we, in our reasonable discretion, consider desirable to correspond with such action or event or to mitigate any loss incurred as a result of such action or event. Any such action shall be binding on you. If a Market or regulatory body makes an enquiry in respect of any of your transactions, you agree to co-operate with us and to promptly supply information requested by us.

10.4. We may hold funds you pay to us with banks located outside the Hashemite Kingdom of Jordan. The legal and regulatory regime applying to any such bank will be different from that of the Hashemite Kingdom of Jordan and in the event of the insolvency or any other equivalent failure of the bank, your money may be treated differently from the treatment which would apply if the money was held in the Hashemite Kingdom of Jordan. We will not be responsible or liable to you for the solvency, acts or omissions of any bank or other third party holding money under this clause 10.

10.5. We are authorised to convert money in your account (including for Margin) into and from such foreign currency at a rate of exchange determined by us on the basis of the prevailing money market rates. In such circumstances, we will not be responsible or liable to you for any loss suffered by you as a result of such action (although, we will use reasonable endeavours to only convert such funds as may prudently be required to cover Liabilities in respect of relevant transactions).

10.6. Where any obligations owing to us from you are due and payable to us, we may cease to treat as client money so much of the money held on your behalf as equals the amount of those obligations in accordance with the JSC Laws, Instructions and Regulations relating to client money. You agree that we may apply that money in or towards satisfaction of all or part of those obligations due and payable to us. For the purposes of this clause 10, any such obligations become immediately due and payable, without notice or demand by us, when incurred by you or on your behalf.

10.7. You agree that we shall be entitled to apply money you hold with us in or towards satisfaction of all or any part of any Liabilities which are due and payable.

10.8. If there has been no trading activity on (any of) your trading account(s) for a period of 24 months (effective from your last trade and starting the day thereafter), an inactivity fee as specified in our price list will be imposed. The fee will be deducted on a monthly basis on any positive balance in your trading account(s). Please note that the

fee will be imposed on each and every separate inactive trading account. To be clear, the fee(s) will be deducted on an account basis and not on a customer basis. Before starting to deduct the fee(s) from your balance(s), we will make reasonable attempts to contact you regarding any funds held in your trading account(s) to inform you that the fee(s) will be imposed. Please keep in mind that it is your responsibility to keep your contact details, that you have shared to us, up to date at all times. We will not charge your inactive trading account(s) if you do not have a positive balance. Your trading account balance will not go below zero. However, if your positive balance is less than the monthly inactivity fee, we will deduct the full remaining amount of funds held in your trading account(s) balance. All trading accounts that have been inactive more than 24 months and has or reaches a balance of zero, will be archived. Should you choose to reactivate your trading account by trading again, the inactivity fee for up to three previous months where there has already been a deduction will be refunded to your account. Should you qualify for any of the said refund(s) it will be made on an account basis.

## 19. Improper Trading

In cases when there are strong suspicions of improper, unlawful, or unfair trading activity we may immediately suspend your trading account(s) in order to investigate further. The outcome of this investigation may ultimately result in the termination the client agreement.

Trading activities to be considered improper, unlawful, or unfair includes but not exclusive:

- **Insider Trading:** Gaining a trading advantage/ making a profit by using non-public, material information about any financial instrument. This may, for example, involve placing orders, or closing orders, in an instrument a short time before there is a major news announcement that proves highly beneficial to the order.
- **arbitrage:** the practice of taking advantage of a difference in prices in the same instrument on two different platforms; striking a combination of matching deals to capitalize on the difference.
- **latency traders:** taking advantage to slow price updates on the trading platform in an attempt to make risk-free profits
- **Front running:** a form of market abuse where a profit is gained by placing a trade in the market ahead of a large anticipated market order that will move the market in the direction of the trade/ order placed. Alternatively, it may be the closing out of a position by knowing in advance that the market is about to move against the position due to an incoming large market order. The move will generate a guaranteed profit or protect against a guaranteed loss for the trade by having some insider information and is illegal.
- **Gap traders:** exploiting price gaps between trading sessions or over weekends by simultaneously placing long and short positions in a market by knowing that negative balances are protected while profits are allowed to stand. A variation on this would be to place a small amount of funds on account and placing the largest possible position prior to expected market gaps and relying on negative balance protection again to protect against any downside while leaving upside completely open ended.
- **Large volumes:** a form of liquidity drainage, where a client (or group of clients) place an order (or multiple orders) that are substantially larger than available in the underlying market, knowing that some of this may need to be hedged in the underlying market, which will lead to the market be moved on the direction of the trade. An alternate form of this is placing orders much larger than are available in the underlying market, as a means of getting market exposure at a desired price that they would otherwise not be able to achieve by any other means.
- **Wash Trading:** also referred to as round trip trading – is an illegal practice where investors buy and sell the same financial instruments at the same time in order to manipulate the market. This maybe to give a false sense of activity or to possibly to generate commissions/ rebates.
- **Price spikes (quote errors):** a substantial profit made with a single trade (or few trades) as a result of an incorrect price that is substantially away from the true/correct market price. This may happen due to the LP

incorrectly pricing an instrument, there being no liquidity in the market or other incorrect instrument configuration. This may not be as a result of client actions but would need to be investigated to see if there is not a pattern on behalf of the client to take advantage of weak pricing.

- **Abusing swaps/dividends:** if the profit gained from positive overnight swaps or dividend adjustments exceeds 30% of total net profit on the account.
- **Matching pattern:** if a specific trading pattern, IP address or any other relevant account data matches corresponding data of another client who has already demonstrated an unfair trading activity in the past.
- **Outlier Trade:** if a trade is an outlier in relation to the rest of the client's trade history e.g. the client's trade sizes are generally small, but the client unexpectedly books one very large trade, that generates very large profit (and the trade may typically be booked around a news announcement). There may not be anything necessarily wrong with this trade, but it would require investigation to identify the circumstances.

## 20. Default and Netting

20.1. The following shall be construed as Events of Default if at any time:

20.1.1. you fail to comply fully and immediately with any obligation to make any payment to us or close any open position on the due settlement date or when required by us;

20.1.2. you default in any other obligation to us under the Agreement or in relation to any transaction or commit any breach of any other obligations under the Agreement;

20.1.3. any representation or warranty made by you was or has become or subsequently would, if repeated at any time, be incorrect;

20.1.4. where we consider you have abused the protection afforded to you pursuant to Clause 4.12 above to our detriment which without limitation includes a situation where a client has acting in bad faith by pursuing a strategy whereby the client would benefit from such protection whilst holding other positions with us which benefit you in the event that the protection is or might be triggered;

20.1.5. we consider it necessary or desirable to prevent what we consider is or might be a violation by you of clause 5.14.1 above;

20.1.6. (where you are a corporate) you commence a voluntary case (or an involuntary case is commenced against you) or other procedure seeking or proposing liquidation, reorganisation, an arrangement or composition, a freeze or moratorium, or other similar relief with respect to you or your debts under any bankruptcy, insolvency, regulatory, supervisory or similar law (including any corporate or other law with potential application to you, if insolvent), or seeking the appointment of a trustee, receiver, liquidator, conservator, administrator, custodian or other similar official of you or any substantial part of your assets; or if you take any corporate action to authorise any of the foregoing; and, in the case of a reorganisation, arrangement or composition, we do not consent to the proposals;

20.1.7. (where you are a corporate) you are dissolved, or, if your capacity or existence is dependent upon a record in a formal register, the registration is removed or ends, or any procedures are commenced seeking or proposing your dissolution, removal from such a register, or the ending of such a registration;

20.1.8. (where you are an individual) you die, become of unsound mind, are unable to pay your debts as they fall due or are bankrupt or insolvent, as defined under any bankruptcy or insolvency law applicable to you; or any indebtedness of yours is not paid on the due date therefor, or becomes capable at any time of being declared, due and payable under agreements or instruments evidencing such indebtedness before it would otherwise have been due and payable, or any suit, action or other proceedings are commenced or any action is taken for any execution, any attachment or garnishment, or distress against, or an encumbrancer takes possession of, the whole or any part of your property or assets (tangible and intangible); or

20.1.9. we reasonably anticipate that any of the foregoing may occur; then we may exercise our rights under clause 20.2, except in the case of the occurrence of an Event of Default specified in clauses 20.1.6 or 20.1.8 (each a **Bankruptcy Event of Default**), in which case the provisions of clause 20.3 shall apply.

20.2. Subject to clause 20.3, we may on or at any time following the occurrence of an Event of Default, cancel any outstanding orders, terminate our services and liquidate all or any of your open positions (the **Liquidation Date**).

20.3. Should a Bankruptcy Event of Default occur we shall be deemed to have exercised our rights under clause 20.2 immediately before the time of the occurrence of the Bankruptcy Event of Default.

20.4. On the Liquidation Date and following it we shall (on, or as soon as reasonably practicable after, the Liquidation Date) close all your open positions and apply all monies held by us towards the costs of such closures.

20.5. If as a result of the actions taken by us pursuant to clause 20.4 your account is in credit, we shall pay such money to such account as you direct as soon as reasonably practicable. If there is insufficient money in your account to cover the actions undertaken by us under clause 20.4, the difference between the amount of money in your account and the cost of closing your open positions will be immediately due and payable to us.

20.6. Our rights under this clause 20 are in addition to, and not in limitation or exclusion of, any other rights which we may have under the Agreement or otherwise whether by agreement or operation of law. In particular and without prejudice to the provisions of clauses 20.2 to 20.5 (inclusive), we are authorised and entitled, without notification to you and at our absolute discretion, to take such action to protect our own position, including without limitation, one or more of the following actions (whether in whole or in part):

20.6.1. cancel all or any unexecuted orders;

20.6.2. close out, perform, cancel or, if applicable, abandon any of your open positions or enter into offsetting positions;

20.6.3. combine accounts, set-off between accounts or convert one currency into any other currency (for the avoidance of doubt, we may do this where there has been an Event of Default or where there is a deficit on one or more of your accounts and a surplus on one or more other accounts); or

20.6.4. satisfy any obligation that you may have to us, either directly or by way of guarantee or suretyship, out of any of your monies in our custody or control.

## 21. In the Event of Death

21.1 In the event of your death, any person(s) purporting to be your legal personal representative(s) or surviving joint account holder must provide us with formal notice of your death in a form acceptable to us, including but not limited to the provision of an original death certificate in physical form.

21.2 Upon the receipt and acceptance of your death certificate, we will treat your death as an Event of Default allowing the Company to exercise any of its rights under clause 20 of these terms and conditions, including, but not limited to, closing any and all open positions within your account; the Agreement will continue to bind your estate until terminated by your legal personal representative or by us in accordance with the Agreement.

21.3 You acknowledge and agree that we will be under no obligation to assume management of your account following your death.

21.4 Notwithstanding anything in these terms and conditions, if the Agreement is not terminated within two years after the date of your death, we may take such action as we consider appropriate to close your account; your estate or its legal personal representative(s) will be liable for all costs associated with us taking this action, or considering taking action, except to the extent that costs arise because of our negligence, willful default or fraud.

## SCHEDULE 1

### Risk Disclosure

**PLEASE READ THE INFORMATION IN THIS SCHEDULE BEFORE USING OUR SERVICES.**

#### **TRADING CFD'S IS NOT SUITABLE FOR EVERYONE, INVOLVES HIGH RISK AND CAN RESULT IN A LOSSES EXCEEDING YOUR INITIAL INVESTMENT**

The purpose of this Schedule is to advise you of some of the risks associated with trading CFDs. It is not intended that this Schedule includes a full and complete description of all the risks involved in trading CFDs. You should ensure that your decision to use our services is made on an informed basis and that you are happy with the information available to you. If you are unsure or do not understand the contents of this Schedule in particular, please seek independent financial advice.

Prior to trading CFDs you must be aware of the risks involved. The high degree of leverage associated with these types of investments means that the degree of risk compared to other financial products is higher. Leverage (or Margin trading) may work against you resulting in a substantial loss as well as a substantial gain.

Admiral Markets is an "execution only" trading platform. No advice will be given regarding your trading activity!

Past performance of these types of investments does not guarantee any future results. You must bear in mind any commission and tax liabilities you will personally incur. Admiral Markets AS Jordan accepts no liability or responsibility for any tax you may be required to pay on any profits made on our Online Facility.

Trading on Margin involves a high level of risk and is not suitable for all investors. The high degree of leverage can work against you as well as for you. It is your sole responsibility to monitor your open positions and you should monitor them closely.

Before trading, you should carefully consider your investment objectives, level of financial experience, and risk appetite. If you are at all unsure as to the suitability of the products offered by us, please seek independent financial advice. There is always a relationship between high reward and high risk. Any type of market or trade speculation that can yield unusually high returns also poses a high risk to capital. Only surplus funds should be placed at risk and if you are not able to sustain trading losses then you should not trade CFDs.

We recommend that ALL CLIENTS familiarise themselves with CFDs, Margin requirements, trading tools, our trading platforms and financial markets in general by taking advantage our FREE TO USE and RISK-FREE Demonstration account (Demo Account). Please see our website [www.admiralmarkets.com/?regulator=jsc](http://www.admiralmarkets.com/?regulator=jsc) for details. Different instruments have different levels of exposure to risk, and when deciding to trade in such instruments, you should be aware of the following points:

## 1. CFDs in General

CFDs are complex financial products which generally only close when a client chooses to close an existing open position, and therefore generally have no set maturity date. (This can be subject to change depending on the terms of the underlying asset class and or product).

CFDs can be likened to futures contracts, which can be entered into in relation to certain foreign currencies, indices, precious metals, oil, commodities, or financial instruments. However, unlike other futures, contracts CFDs can only be settled in cash. Transactions in CFDs may also have a contingent liability and you should be aware of the implications of this as set out below. All our CFDs are synthetic contracts, which means that clients do not have any right to the underlying instrument or thing or the rights which are attached to the same unless specifically stated in the CFD. This includes no right to any underlying reference shares or attached voting rights.

## 2. Investing in rolling Forex, indexes, precious metals, oil and commodities

Investing in rolling Forex and CFD's on cryptocurrencies, indexes, precious metals, oil and commodities carries similar risks as investing in a future and you should be aware of these. Such margined transactions may also have a contingent liability and you should be aware of the implications of this as set out in paragraphs 3 and 4 below.

In addition to standard industry disclosures contained in this Risk Disclosure, you should be aware that margined rolling Forex and CFD's on indexes, precious metals, oil and commodities trading are some of the riskiest forms of investment available in the financial markets and may not be suitable for all investors. Given the possibility of losing an entire investment, speculation in the precious metals, indexes, oil, commodities or foreign exchange markets should only be conducted with risk capital funds that if lost, will not significantly affect your personal or institution's financial well being.

## 3. Foreign markets

CFDs relating to foreign markets involve different risks from the client's native markets. In some cases risks will be greater. The potential for profit or loss from transactions relating to foreign markets will be affected by fluctuations in foreign exchange rates. Such enhanced risks include the risks of political or economic policy changes in a foreign jurisdiction, which may substantially and permanently alter the conditions, terms, marketability or price of a foreign currency.

## 4. Risk reducing orders or strategies

The placing of certain orders (e.g. "stop loss" or "stop limits" orders) that are intended to limit losses to certain amounts may not always work because market conditions or technological limitations may make it impossible to execute such orders at the required prices or at all. Should a client trade using such orders or strategy they must do so accepting this risk.

## 5. Leverage

CFDs carry a high degree of risk. The gearing and leverage that is obtainable with CFD trading means that you only need to place a small deposit (Margin) to commence trading with us although this small deposit may result in large losses or large gains. Highly leveraged transactions are subject to significant changes in value as a result of relatively small changes in the value or level of the underlying instrument or thing on which the price of the CFD is based.

## 6. Contingent liability transactions

CFDs are leveraged or margined transactions requiring you to make a series of payments against the contract value, instead of paying the entire contract value immediately. You may sustain a total loss of the Margin you deposit with us to establish or maintain a position. We re-value your open positions continuously during each business day, and any profit or loss is immediately reflected in your account and a loss may result in you being called upon to pay substantial additional Margin on short notice to maintain your open positions.

We may change the rates of Margin and/or notional trading requirements at any time (including over week-ends/bank holidays or in abnormal market conditions), which may also result in a change to the Margin you are required to maintain. If you do not maintain sufficient Margin on your account at all times and/or provide such additional funds within the time required, your open positions may be closed at a loss and you may be liable for any resulting deficit.

## 7. Over-the Counter (OTC) Transactions

When trading CFDs you are not trading on a regulated market or exchange. You will enter directly into a contract with us in respect of the underlying financial instrument or thing on which the price of the CFD is based. All open positions with us must be closed with us and cannot be closed with any other party. This may make it difficult for you to close a position at a price that you are happy with or at all (for example, if we experience technical problems with our Online Facility and it is unavailable, or we become insolvent).

Trading in OTC financial transactions may expose you to greater risks than trading on a regulated market because there is no market on which to close out your open positions and prices and other conditions are set by us subject to any legal/regulatory requirements. OTC transactions may increase the liquidity risk and introduce other significant risk factors: it may be impossible, for example, to assess the value of a position resulting from an OTC transaction or to determine the risk exposure. Also, bid prices and offer prices need not be quoted by us and, even where they are, we may find it difficult to establish a fair price particularly when the relevant exchange or market for the underlying is closed or suspended.

## 8. Prices

The prices posted on our Online Facility may not necessarily reflect the broader market. We will select prices that we feel are appropriate to determine margin requirements and in periodically marking to market the positions in your account and closing out such positions. Although we expect that these prices will be reasonably related to those

available on what is known as the interbank market or any appropriate trading venue or other financial market (**Reference Market**), prices we use may vary from those available to banks and other participants in the Reference Market. Consequently, we may exercise considerable discretion in setting Margin requirements and collecting Margin from you.

As the CFDs are in part related to the underlying (and any Reference Market), you should ensure you are aware of the risks involved in the underlying including currency fluctuation, volatility and gapping (a sudden price shift which can be caused by many factors including but not exclusively, economic events, market announcements and periods where trading in the underlying does not take place). A stop-loss order is non-guaranteed and will not protect you against this risk as it is not immediate and only triggers an order to close the position at the nearest available price.

## 9. Position Monitoring

It is your responsibility to monitor at all times the positions you have opened and you should always be in a position to do so. Whilst we will attempt to close positions once your Margin has been used up, we cannot guarantee this will be possible and therefore you will remain liable for any resulting shortfall. This Schedule should be read in conjunction with the main terms and conditions of business of which this Schedule forms a part, and any other document supplied or otherwise made available on our Online Facility.

## 10. Unexpected Event and Weekend Risk

Various situations, developments, suspensions, unexpected breaks in trading hours or events that may arise over a weekend/bank holiday when a market will generally close for trading, may cause the market/underlying asset class to re-open at a significantly different price/level from where market/underlying asset class closed on the previous business/trading day. You will not be able to use the Online Facility to place or change orders at these times when the markets are generally closed. There is a substantial risk that stop-loss orders left to protect open positions held at these times will be executed at levels significantly worse than their specified price. When doing this you accept this risk and that you will be liable for any resulting deficit.

## 11. Electronic trading

Trading in OTC contracts through the Online Facility may differ from trading on other electronic trading systems as well as from trading in a conventional or open market. You will be exposed to risks associated with the electronic trading system including the failure of hardware and software and system down time, with respect to the Online Facility, your systems and the communications infrastructure (for example the Internet) connecting the Online Facility with you.

## 12. Trading suspensions

Under certain conditions it may be difficult or impossible to liquidate a position. This can occur, for example, at times of rapid price movement where the price for an underlying rises or falls during one trading session to such an extent

that trading in the underlying is restricted or suspended. Where this occurs you accept any associated risk and you will be liable for any resulting deficit. You should also be aware that under certain circumstances we may be required to close positions due to regulatory or exchange instructions and as such we are not responsible for any losses that may result.

### **13. Commissions**

Before you begin to trade, you should obtain details of all commissions and other charges for which you will be liable, as indicated in the rates schedule available on the Online Facility. Clients should be aware of the potential costs or liabilities of such a transaction including but not limited to: swaps and corporate actions such as issuance rights, dividends, stock splits, etc.

### **14. Insolvency**

If you become insolvent or bankrupt or default in your obligations to us, this may lead to your positions being liquidated or closed out without your consent. In the event of our insolvency, any money you hold with us may be irrecoverable by you.

### **15. Communication**

We accept no responsibility for any losses that arise as a result of delayed or un-received communication between you and us.

### **16. Advice**

We do not provide investment advice and we provide execution only services. Whilst we may make general assessments of the markets, such assessments are not individual investment advice and do not take into consideration your individual circumstances. Any decision to trade is yours alone.

### **17. Corporate Actions: Share CFDs**

Please note that the treatment you receive during a corporate action may be less favourable than if you owned the underlying instrument because changes we make may need to be made in a reactionary manner and to take effect sooner than required by the corporate action. Therefore the time you have to make decisions could be considerably reduced; the options available may be more restrictive/less advantageous and may be such that there is no opportunity for you to close the position. Given that corporate events can often be announced at extremely short notice you may have no opportunity to close positions out to avoid negative consequences and you may be required to provide more funds to cover margin at very short notice.

## 18. Dividends and Dividend Adjustments on CFD's

A 'Dividend Adjustment' is an adjustment that is applied when a share passes its ex- dividend date (including the ex-date of any special dividend) in the underlying stock market. In the case of long positions, the dividend adjustment is credited to your account. In the case of short positions, the dividend adjustment is debited from your account.

### A. How do dividends affect positions on indices or shares?

When an underlying share goes ex-dividend (that is, they pay a dividend to shareholders), we make a cash adjustment to your account so that your position is not affected by the drop in price that occurs in the market for that share or index. If you are long, we will credit your account. If you are re short, we will debit it.

### B. What happens when a stock or index goes ex-dividend?

When a share goes ex-dividend the value of the share will generally fall by the same amount as the dividend. Since a share index is made up of a number of companies, the fall in value of the shares will also cause a fall in the value of the index.

### C. Why we make the adjustment

When the price of a share or index drops after going ex-dividend, your running profit & loss (P&L) is affected. If you are long, this means you miss out on potential profit. If you are short, this means your P&L is better than it should be.

Given that the drop in price is an expected market movement, we must make an adjustment so that your P&L is not affected.

The dividend amount will vary depending on the company or index.
